

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Kenneth Hejza
DOCKET NO.: 03-22182.001-R-1
PARCEL NO.: 12-02-128-013-0000

The parties of record before the Property Tax Appeal Board are Kenneth Hejza, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 47-year old, multi-level frame and masonry dwelling containing 1,369 square feet of living area with a partial, finished basement, a fireplace, and a one and one-half car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, the comparables are located approximately two to four blocks from the subject. The comparables are multi-level masonry, frame, or frame and masonry dwellings that are 37 to 46 years old. One of the comparables has a full basement, and the other three have partial basements. Each of the comparables has central air conditioning, and three have fireplaces. Information on garages was not disclosed, although photographs supplied by the appellant indicate that at least three of the comparables have two-car garages. The comparables contain 1,484 to 3,168 square feet of living area and have improvement assessments ranging from \$12.60 to \$13.55 per square foot. The subject property has an improvement assessment of \$16.77 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	8,154
IMPR.:	\$	22,962
TOTAL:	\$	31,116

support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties. Three of the comparables are located one to four blocks from the subject, and the other is located approximately 0.5 mile from the subject. The comparable properties consist of multi-level frame and masonry dwellings that are 48 to 50 years old. Each comparable has a partial, finished basement and a two-car garage. One of the comparables has central air conditioning, and another has a fireplace. The dwellings contain 1,231 to 1,405 square feet of living area and have improvement assessments of \$17.26 to \$20.78 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

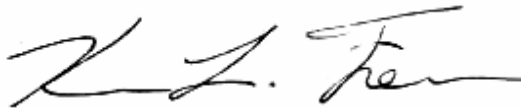

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables one, two and four differed significantly in size from the subject and received reduced weight in the Board's analysis. The board of review's comparable three differed in location and also received reduced weight. The appellant's comparable three and the board of review's comparables one, two, and four were the most similar to the subject property in location, age, and physical characteristics. These comparables had improvement assessments of \$13.48 to \$18.22 per square foot and supports the subject's improvement assessment of \$16.77 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable property contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
